

Do you find it easy to get around Hackbridge?

Hackbridge is divided by London Road. The fast flowing traffic into Hackbridge Corner discourages cycling and makes walking into and across Hackbridge an unpleasant experience. We will improve our streets, ensuring that movement around Hackbridge is a pleasant experience, and believe this vision can be realised through the actions listed below:-

		YES	DON'T KNOW / DON'T MIND	NO
FOOTPATHS Improve the access for all by widening the width of existing footpaths, replace existing uneven paving with new attractive paving, street furniture and introduce landscaping	72% supported the proposal to widen footpaths, replace existing uneven paving etc	18	1	6
CYCLING Improve existing cycle lanes across Hackbridge to provide well sign posted network of cycling routes	90% supported the proposal to improve the provision for cyclists	20	2	0
BUSES/TRAINS Improve interchange between different modes of transport. Create a bus interchange in Hackbridge, located near the train station and Hackbridge Corner	69% supported proposals to improve interchange between different modes of transport	20	5	4
LONDON ROAD Implement traffic calming measures from Hackbridge Station to the corner of London Road and Longfield Avenue to slow traffic to 20mph	68% supported proposals for traffic calming measures along the London Road	17	1	7
HACKBRIDGE CORNER Make the public realm safer & more attractive with improved crossings; new paving; street furniture; public art; bicycle parking & new public open space(s) fronting the main road(s)	87% supported proposals to make Hackbridge Corner public realm safer and more attractive	26	3	1

Do you have any other comments

- It's easy to get around Hackbridge but it's not safe to get back to Hackbridge late at night or after dark
- There are no night buses so have to stay at friends
- Hackbridge could be at the centre of the most environmentally sound cycle network in the country
- I can only walk 200yds before I need to sit down because I have a physical disability so I would like somewhere to sit frequently
- It's a waste of money to spend it on footpaths. Spend it on something better

Should Hackbridge Corner be the Hub of the Community?

The Felnex Estate redevelopment project will provide approximately 750 new households to the area as well as new offices and shops. Our vision is for Hackbridge Corner to continue to be the heart of our neighbourhood. We believe that it can become a vibrant hub of our community supported and strengthened by the new commercial activity of the new developments with the proposed improvements listed below:-

DO YOU AGREE WITH THIS VISION TO IMPROVE HACKBRIDGE CORNER?		YES	DON'T KNOW / DON'T MIND	NO
		120	2	0
HUB OF THE COMMUNITY Ensure the new developments support and reinforce Hackbridge Corner as the centre and hub of the community	96% supported the proposal to ensure new Hackbridge Corner is reinforced as the centre of the community	24	1	0
SHOP FRONTS Encourage the regeneration of the existing shop fronts in a manner which respects the character of the buildings	100% supported the regeneration of shop fronts, taking account of character of the existing buildings	24	0	0
NEW SHOPS Encourage/support locally owned, community focused businesses which improves the diversity of business along Hackbridge Corner	100% supported encouragement of locally owned and community focused businesses	24	0	0
HACKBRIDGE STATION Create an attractive and safe public space within the forecourt to the station with improved pedestrian links to Hackbridge Corner	100% supported improving the forecourt of Hackbridge station	24	0	0
MILE LANE ENTRANCE Create a safe, attractive landscaped entrance to Beddington Farmlands (future Country Park) at Mile Lane, making sure to closely involve the residents of Furlong Close in the process	96% supported improving the entrance to Mile Lane	24	1	0

Do you have any other comments

- Hackbridge looks quite dreary especially where shops are near station, Londis, Finlays etc. If these were repainted it would look much better
- Skateboard ramp and youth club
- To make sure the incinerator (if built) is safe for environment and residents
- Hackbridge needs more distinct identity and sprucing up – especially around the shops
- Information kiosk – Mile Lane

Should we make more of the open spaces in the area?

Hackbridge and Beddington Corner is situated within the largest green area in South London, with Beddington Farmlands to the east, the River Wandle to the west, Mitcham Common in the north and Beddington Park and the Wandle to the south. The ecological and bio diversity importance of the Hackbridge area is unparalleled and there is great potential in building on the existing green infrastructure to realise the vision of Hackbridge being the greenest, most sustainable suburb in the United Kingdom. We believe this vision can be realised through the actions listed below:-

DO YOU AGREE WITH THIS VISION TO IMPROVE OUR OPEN SPACES?		YES	DON'T KNOW / DON'T MIND	NO
		106	2	2
RIVER WANDLE Exploit the benefits of the River Wandle to its full potential	100% supported exploiting the benefits of the River Wandle	23	0	0
GREEN LINKS & ECOLOGY CENTRE Improve access to green spaces – strengthen existing green corridors and create new green links to the Wandle Valley Regional Park by creating a new ecology centre	100% supported improving access to green spaces	25	0	0
EMPLOYMENT OPPORTUNITIES Support local people to develop specialist skills for employment in green space management	95% supported helping local people to develop specialist skills for employment in green space management	19	1	0
CONNECTING WITH NATURE Encourage children and young people to connect with nature. Local schools and community involvement to help plant bulbs and shrubs, record numbers of bugs and birds as part of a wider project	95% supported encouraging children and young people to connect with nature	18	1	0
GARDENING Integrate the green and built environments by creating new planting and wildflower meadows. Promote and encourage wildlife gardening – backyards are valuable green spaces	91% supported integration of the green and built environment	21	0	2

Do we have adequate housing, health and education facilities?

Our vision is to ensure adequate affordable housing, education and recreational facilities are provided to meet the needs of the community. We live in a diverse neighbourhood, one that will continue to change with the addition of approximately 1100 households over the next 5 years. Our population is ageing and by 2025 the majority of households will be single occupants, many with older occupants. We believe our vision can be realised through the proposals below:-

	YES	DON'T KNOW / DON'T MIND	NO
ADEQUATE PROVISION Work with Sutton Council, NHS, education and other community services to ensure that the service provision matches the proposed programme of developments and associated population growth 88% supported working with Sutton Council to ensure adequate provision of existing services, now and in the future	15	1	1
HOUSING Provide sufficient homes of different sizes available to both rent and buy. Ensure design principles for new housing are innovative 81% supported the need to provide sufficient homes of different sizes for purchase and to rent, with all new housing being built to an agreed set of innovative design principles	17	2	2
COMMUNITY REPRESENTATION Ensure the community has a major ongoing role in implementing the Hackbridge and Beddington Corner Neighbourhood Plan through formal representation on the Council's Hackbridge Project Board 100% supported community involvement in producing a neighbourhood plan and representation on relevant Sutton Council boards	19	0	0
LIFESTYLE CHANGE Work with Sutton Council, NHS, education and other community services to encourage healthy living – explore new food growing opportunities, such as new allotments or sharing gardens 86% supported community involvement in encouraging promoting healthy lifestyles	19	3	0
HISTORY Ensure we retain as much of the heritage of Hackbridge as is possible and that all new developments enhance the identity of Hackbridge as a place of quality and character 91% supported retaining the heritage of Hackbridge and ensuring that future developments enhance the identity of Hackbridge	20	2	0

- A new secondary school
- Involve the older community more – afternoon/early evenings, walks activities
- Build a senior school please
- If council plan to do anything outside a person's house eg a tree or a hump in the road – they should ask the person concerned
- Replacement housing in Hackbridge for Corbet Close tenants forced to move
- Thumbs up!

Hackbridge and Beddington Corner Neighbourhood Development Group

Should we make Hackbridge a sustainable suburb?

Like the open green spaces surrounding our neighbourhood, there are a number of resources that are not being fully used to meet our community needs. Waste heat from landfill, renewable energy, water and better built buildings etc, can be used to reduce our dependence on non-renewable expensive resources. This would contribute to a reduction in energy bills and fuel poverty. This vision will be realised through the initiatives listed below:-

DO YOU AGREE WITH THIS VISION TO ACHIEVE A MORE ENVIRONMENTALLY SUSTAINABLE HACKBRIDGE?		YES	DON'T KNOW / DON'T MIND	NO
		97	3	1
UPGRADE EXISTING HOUSING Work with local people and other partners to retrofit every building in Hackbridge by 2019 – improve energy efficiency through better insulation, draft proofing, new windows etc	90% support working with the local community to retrofit every building in Hackbridge to ensure energy efficiency	19	2	0
ZERO CARBON Work with developers to deliver zero carbon on new developments	95% support working with developers to deliver zero carbon on new developments	18	1	0
HEAT NETWORK Establish a cost competitive district heating network linked to landfill – using waste heat from local landfill site under community control	93% support the establishment of a district heat network linked to landfill	14	0	1
WATER USE Work with local people and local businesses to implement a sustainable water strategy	100% support the establishment of a sustainable water strategy	23	0	0
REUSE, RECYCLE Work with local people and local businesses to implement a reduced waste strategy, ensuring that we strive to reduce, recycle and reuse all our waste	100% support working with local people and local businesses to implement a reduced waste strategy	23	0	0

Do you have any other comments

- What is zero carbon?
- What about old houses?
- I'm worried about my children's health with new incinerator although agree landfill is not okay and if we do get an incinerator then we want to see some community benefit eg free or cheap electricity
