

Dear Neighbour

It's been a while since we have been in touch about the redevelopment of Corbet Close.

Since demolition was completed earlier in the year, we have been working on our due diligence – that is the detailed work that is required to commence any development project which involves our design, construction, commercial, financial and our legal teams working together to ensure the partnership has all the information it needs to begin construction.

Over the summer we have been working on the detailed designs for the new scheme which will include 54 new homes for sale. The homes will be a range of 2, 3 and 4 bedroom terraced houses and many will have views across the River Wandle.

We have also been engaged with the Wandle Trust in reviewing the detailed plans for the landscaping works to the riverside to ensure that the ecology is preserved

whilst providing a more useable and attractive outlook for local people.

You may have noticed the sales enquiries sign on the hoarding to the south of the site. We are very keen to hear from local people who are interested in buying a new home on the development. **If you or a friend or family member would like to register your interest, then please e-mail us at newhomesforsale@rydon.co.uk**

We are looking forward to starting construction works on the site soon and will keep you posted with further updates going forward.

With best regards

The Lavender Housing Partnership
